# LA MASIA MODEL

## FC Barcelona's youth academy

La Masía, translated to "The Farmhouse" in English in honor of the original academy house, is the term used for FC Barcelona's youth academy located in Spain.

The Academy currently includes more than 300 young players, and is the first youth academy in the world to have trained all three finalists for the Ballon d'Or in a single year (Andres Iniesta, Lionel Messi, and Xavi). The Academy has been a significant factor in Barça's European success.

Many attribute FC Barcelona's success to the La Masía "Philosophy of Play" which all players learn. The philosophy consists of the application of "total football" mixed with traditional Spanish one-touch play.

This philosophy is the building block of the methodology across all Barça Academies and Camps around the world. The methodologies and teachings Barça Academy players and campers receive are the same principles World Class players have grown up learning at La Masia.

# UNIQUE METHODOLOGY

Barça Academy methodology is the same training used by La Masia, which aims to teach the core skill principles and values that are representative of FC Barcelona. Most importantly, better people make better players. Each player will be expected to carry the skills and values taught within Barça Academy with them throughout their life.

Ball possession, reduced spaces and decision making are the principles of the unique FC Barcelona style and philosophy.
